

Inventor Publisher 2012 Course Outline

The Autodesk Inventor Publisher 2012 Essentials training guide instructs students in best approaches for creating technical documentation using the Autodesk Inventor Publisher software. Through a hands-on, practice-intensive curriculum, students acquire the knowledge needed to create accurate and compelling documentation, and to publish it in a variety of supported formats.

The training guide progresses from the initial planning phase, in which you begin by reading in all of the source data and then adding the necessary annotations to create and publish the product documentation. A project exercise has been included that only provides high level guidance to complete a project

Topics:

1. Autodesk Inventor Publisher Overview

What is Autodesk Inventor Publisher?
Why Use Autodesk Inventor Publisher
Workflow Overview
Performance and Capacity Tips

2. Pre-Authoring

Interface Overview
Pre-Authoring
Getting Started
Importing CAD Data
Publish Area
Working with Associative Files

3. Authoring I- Basic Authoring

Setting up your Story
Selecting Components
Moving Components
Creating Trail Lines
Component Visibility
Changing Your Viewpoint
Modifying Snapshots
Play Presentation

4. Authoring II- Model Appearance

Background Appearance
Component Appearance
Sectioning Components
Detail Views

5. Authoring III- Annotations

Dimensions
Callouts and Labels
Parts Lists
Additional Annotations
Optimizing for Animations

6. Publishing

Publishing Overview
Publishing Documents
Inventor Publisher Word Add-In
Publishing Image Files
Publishing Animations
Interactive 3D Publishing

7. Project Exercise

8. Mobile Viewer

Overview of the IPM Viewer
Accessing Files on a Mobile Device
Manipulating Files in the Mobile Viewer

Duration: 1 day

Classroom Tuition: \$295.00/student

Group rates are available
